## EXPERT RESOURCES CONTACT LIST

### **Questions, facts or quotes about birds? We have answers.**

Hawk Mountain Sanctuary offers expert resources for any question regarding birds of prey, their biology, migration, conservation concerns and population trends as well as birds in general, and Appalachian flora and fauna. Please feel free to contact our staff source experts.

#### **Keith Bildstein, Ph.D., Sarkis Acopian Director of Conservation Science**

570-943-3411 x108 or [bildstein@hawkmtn.org](mailto:bildstein@hawkmtn.org)

Ph.D. Zoology; 30-year academic and research career focused on long-term ecological studies of animal populations and behavior. Author of more than 100 refereed publications, and two books including *Migrating Raptors of the World: Their Ecology and Conservation* (2006). Member of 21 professional organizations; elected Fellow, American Ornithologists' Union; sets priorities, oversees and conducts Sanctuary research; coordinates research by visiting scientists and graduate students.

#### **Laurie Goodrich, Senior Monitoring Biologist**

570-943-3411 x106 or [goodrich@hawkmtn.org](mailto:goodrich@hawkmtn.org)

M.S. Ecology; doctoral candidate. 20 years wildlife research experience. Responsible for land stewardship and wildlife monitoring programs. Coordinates all on-site monitoring programs, including hawk counts, bird and butterfly surveys; serves as interpretive naturalist; helps train interns.

#### **Christopher, J. Farmer, Ph.D., Senior Research Biologist**

570-943-3411 x102 or [farmer@hawkmtn.org](mailto:farmer@hawkmtn.org)

Ph.D. Ecology, 10-year research career focusing on predator-prey relationships, 5 years teaching science at the high school level. Coordinates new cooperative conservation initiative to assess the status of 33 raptor species in North America using migration counts and other data for statistical analysis.

#### **David Barber, Research Biologist**

570-943-3411 x105 or [barber@hawkmtn.org](mailto:barber@hawkmtn.org)

B.S. Biology, Rutgers University, M.S., Biology, University of Arkansas. 19 years studying songbirds and raptors; 13 years working with geographic information systems (GIS) and oversees all Hawk Mountain GIS. Coordinates and conducts non-raptor monitoring programs (songbird and butterfly) and serves as official raptor counter.
