

GOAL: \$8 MILLION

Visitor Center Capital Campaign Headquarters for Global Raptor Conservation

A Case for Support

Hawk Mountain Sanctuary is building a new, state-of-the-art Visitor Center! This will complete the transformation and modernization of the Hawk Mountain facilities to reflect our leadership in global raptor conservation science and education. The current building is aging, inefficient, and ineffective. A new Visitor Center is a critical need to serve as welcoming point for all visitors to the Mountain.

The goal is to reimagine a new Visitor Center that better meets our communities' needs and honors the storied legacy of Hawk Mountain while celebrating its far-reaching global impact and vision for the future. The new facility will inspire and delight with a grand entrance, soaring gabled roof, larger and more dynamic educational exhibits, inviting outdoor spaces, improved office and meeting spaces, new nature store and viewable raptor enclosures. The Visitor Center will serve as entry to the world's most famous hawk migration watchsite and connect visitors with our global reach.

Impact

- Create a must-see destination that boosts revenue and economic impact
- Demonstrate our commitment to raptor conservation science and education
- Be fully accessible by removing all barriers for all visitors
- Improve vehicle and visitor flow while improving safety and the visitor experience
- Model green building techniques including bird-friendly glass

This is a call to action; a call to create a better world for birds of prey. Please contribute to the exciting future of Hawk Mountain Sanctuary. Help us build the Hawk Mountain Visitor Center, a new headquarters for global raptor conservation.
